

## Premium Mattress Construction Adhesive

### Product Description

Cleanspek 993 is engineered with a medium open time but a high initial tack for versatility during application. This pressure sensitive hotmelt adhesive is engineered for a fast tack for versatility during application and offers exceptional adhesive strength. This formula will provide versatile performance in manual and automatic mattress manufacturing applications.

### Product Advantages

- Cleanspek 993 will not squeak or crack once cured but maintains high heat resistance.
- Cleanspek 993 has clean running, anti-charring properties reducing oxidation.
- Cleanspek 993 has a high initial tack enabling immediate movement without delamination.
- Cleanspek 993 is low in odours and VOC's and non-tainting.

### Application

Cleanspek 993 should be applied between 160°C and 170°C through a spray nozzle system.

## Technical Information

**Adhesive type**

Synthetic rubbers

**Viscosity**

1900cps

**Ring and ball softening point**

94°C

**Adhesive open time**

Long

**Adhesive molten tack**

Fast

**Colour**

Light amber

**Shape**

Pillow

## Health & Safety

All the constituent parts of this adhesive comply with American FDA under CFR 21.175.105.

Health and Safety: Users must first read the Safety Data Sheet. Users should familiarize themselves with all the safety aspects of the product prior to usage.
